Price:
Summer rent: 14 000 EUR

Description

We offer for your attention this luxurious apartment in the heart of Jurmala – Bulduri. It is located in a very convenient area, between the seaside and the river Lielupe. Good infrastructure. Rimi hypermarket, a health centre and a water entertainment park are located nearby.

The building in which the current apartment is located, is one of the five houses built within the Project „Dzintara Nami” („Amber Houses”). It is situated in a quiet area of private houses, near the pine-tree wood. The building is designed in modern style. Its main elements are wood and toned glass, that are representing memories of the past and visions of nowadays. The territory around the house is green and nice.

The author of the design and the atmosphere of the apartment is one of the most high-level Latvian designers. There is very much light and sun, and the wood behind the windows gives additional air to the apartment. It is simply made to rest and to create in it. The apartment is located on the 3rd floor, but it will not bother you, as there is an elevator in the house. It is also completely furnished. There is a subterranean parking place for your car.
