Price: **To buy: 140 000 EUR**

Description

City Home apartment project is located on the corner of Miera and Ieroču streets. Miera street was entered in the List of World Cultural and Natural Heritage.

Miera street - a unique place in Riga, with its own cultural and artistic environment. There are lots of cozy cafés, vintage shops and art galleries, which are always happy to each guest. Here disappears vibrant city and you receive a sense of calm - this is evidenced by the street name (Miera - peaceful).

The City Home building is energy efficient, with modern architecture that blends into the city's historical landscape.

The landscaped courtyard features plenty of greenery and decorative plants. Plus, it has a large, beautiful ash, a children's playground and 29 parking spaces.

We offer both fully finished apartments, as well as the opportunity for you to choose one of the apartment designs and color range variants we offer during the construction stage of the project. Some apartments have balconies. In the attic apartments you can enjoy the natural sunlight.

The project is planned to be finished in December 2021.

We have access to all available apartments for sale in this project. Please contact us for checking the sales status, requesting further detailed information, get floor plans, scheduling viewings, negotiating offers, prices etc.
